## **DIESEL AIR COMPRESSOR TRADITIONAL**

Traditional style compressors are the work horse compressor. Their large air storage tank means that a work area can be blown down with the stored air without the need to start the compressor. Diesel operated.

### **Options:**

- 350lpm / 100psi
- 420lpm / 100psi
- 545lpm / 150psi

### **Features & Benefits:**

- Provides highest level of output compared to electric and petrol compressors
- Provides high torque and capacity for wide range of simultaneous air tool connections
- Supports the connection of the fuel intake to the vehicle fuel tank illuminating the need to fill the compressor tank directly (which is why many utes and trucks are diesel)
- Minesite compliant

### **Details:**

- |                 |                                 |
|-----------------|---------------------------------|
| ✔ Compatibility | Ute, Trailer, Truck             |
| ✔ Warranty      | 12 Month manufacturers warranty |
