REAR SUSPENSION UPGRADES

OEM rear suspension upgrade including springs and shocks, Compliant up to the vehicle's legal GVM.

Features & Benefits:

- Upgrading vehicle suspension to increase the ride height can enhance the comfort and handling of the vehicle and offer a smoother ride for passengers
- Provides unhindered wheel articulation giving increased clearance over obstacles and allows for the fitment of larger off-road tyres
- A rear suspension upgrade is not a Gross Vehicle Mass (GVM) upgrade because it only affects the rear springs
- The GVM of the vehicle remains the same meaning no additional load, in excess of the factory GVM can be carried

Details:

✔ Compatibility	Ute
🛡️ Warranty	12 Month manufacturers warranty
