## **REVERSE/DASH CAMERA, MIRROR MOUNT**

Full screen high-definition reverse camera with dual front and rear dash cam. Camera installation is configured to function automatically in reverse with manual override via on-screen button to activate camera in forward gears.

### **Options:**

- Standard Mount
- High Mount

### **Features & Benefits:**

- Important feature for rear visibility and safety on all service bodies
- Non-dashcam version also available
- Memory card included
- High definition streaming media mirror monitor with built-in dual dash-cams. Both a reverse camera and front and rear dash camera system. 9.66" full screen high definition display - replaces vehicle OEM rear vision mirror
- Dual Front and Rear 1080p recording cameras (Dash Cams) - Front camera incorporated into Mirror Monitor and camera records through reverse camera. 140 degree wide viewing angle and auto camera angle adjustment, tilt up/down to suit reverse and forward gears
- Options for Parking and Night mode to reduce glare to drivers vision
- Reverse Camera/Rear Vision display will automatically activate when vehicle is in reverse
- Rear Vision Camera can be programmed to be active in forward gears to provide rear vision where standard mirror is blocked by Service Body or Equipment
- WIFI Connectivity allowing for easy file downloading and sharing through Smart Park App, compatible with Android and iOS
